# FORTY-FOURTH ANNUAL REPORT.

PHILADELPHIA, January 10th, 1899.

*To the Stockholders of the Lehigh Valley Railroad Company:*

The following report of the business of your Company and its allied interests for the fiscal year ended November 30th, 1898, is submitted:—

## MILEAGE.

The mileage of railroads owned and operated by the Lehigh Valley system, the main line of which extends from Jersey City, N. J., to Buffalo, N. Y., is as follows:—

	MILES.	INCREASE.	DECREASE.
Owned, or controlled by ownership of entire capital stock . .	979.088	. . . . .	4.310
Controlled by ownership of majority of stock . . . . .	323.391	27.100	. . . . .
Leases . . . . .	27.878	. . . . .	. . . . .
Total mileage operated (owned and controlled) . . . . .	1,330.357	22.790	. . . . .
Trackage rights over railroads owned by other companies . .	63.440	3.060	. . . . .
Total mileage operated . . . . .	1,393.797	25.850	. . . . .
Easton & Northern Railroad . . . . .	8.137	. . . . .	. . . . .
Total mileage . . . . .	1,401.934	25.850	. . . . .

The increase in mileage was caused by the absorption in January, 1898, of the Montrose Railway, which prior to that time was independently operated, to additional construction of the Seneca County Railway, and sundry small branches less tracks abandoned, as shown below.

## INCREASE IN MILEAGE.

Montrose Railway . . . . .	27.224 miles.
Seneca County Railway . . . . .	2.966 "
National Docks Railway—trackage . . . . .	3.060 "

33.250 miles.

## LESS DECREASE.

Loyalsock Railroad, Thorndale Branch . . . . .	5.245 "
Sundry branches . . . . .	2.155 "

7.400 "

Net increase . . . . . 25.850 miles.

The results of operations are shown in the following statements:—

### EARNINGS.

By reference to the income account, it will be noted the gross earnings from operation of your railroad for the year ended November 30th, 1898, amounted to \$19,742,537.96, an increase over the corresponding fiscal year, 1897, of \$183,371, or .94 per cent.

The expense of operation amounted to \$14,188,227.88, a decrease, as compared with the previous fiscal year, of \$225,102.67, or 1.56 per cent.

The net earnings from operation amounted to \$5,554,310.08, an increase over the previous fiscal year of \$408,473.67, or 7.94 per cent.

The percentage of operating expenses to earnings was 71.87 per cent., as compared with 73.69 per cent. in 1897, a decrease of 1.82 per cent.

### COAL TRAFFIC.

The earnings from transportation of anthracite and bituminous coal were \$8,436,391.89, a decrease of \$124,026.18, or 1.45 per cent., as compared with the previous year.

There were 11,574,835 net tons of coal transported during the year, an increase of 44,788 tons as compared with the previous year, or .388 per cent.

The average rate per ton was 72.89 cents, as against 74.24 cents for the previous year, a decrease of 1.35 cents, or 1.82 per cent.

The average rate per ton per mile was .630 cent, as against .672 cent for the previous year, a decrease of .042 cent, or 6.25 per cent.

The number of tons carried one mile was 1,339,426,383, an increase of 65,687,322 ton miles, or 5.16 per cent.

The coal was carried an average distance of 115.72 miles, an increase of 5.25 miles, or 4.75 per cent.

### MERCHANDISE TRAFFIC.

The earnings from miscellaneous freight traffic were \$7,571,978.39, an increase of \$168,507.56, or 2.28 per cent., as compared with the previous year.

The total tonnage, exclusive of Company material, was 7,373,933 tons, an increase of 1,034,407 tons, or 16.32 per cent.

The average rate per ton was 102.69 cents, a decrease of 14.09 cents, or 12.07 per cent.

The average rate per ton per mile was .406 cent, a decrease of .072 cent, or 15.06 per cent.

The number of tons carried one mile was 1,864,684,005, an increase of 316,394,560 ton miles, or 20.44 per cent.

The miscellaneous freight was carried an average distance of 252.88 miles, an increase of 8.65 miles, or 3.54 per cent.

Company's material amounted to 175,351 tons, a decrease of 30,746 tons, or 14.92 per cent.

### PASSENGER TRAFFIC.

The earnings from passenger traffic were \$2,718,858.43, an increase of \$46,311.30, or 1.73 per cent.

The total number of passengers carried was 4,569,005, a decrease of 312,605 passengers, or 6.40 per cent.

The average receipts per passenger were 59.51 cents, an increase of 4.76 cents, or 8.69 per cent.

The average receipts per passenger per mile were 1.856 cents, a decrease of .117 cent.

The number of passengers carried one mile was 146,509,672, an increase of 11,020,661 passenger miles, or 8.13 per cent.

The average distance each passenger traveled was 32.07 miles, an increase of 4.32 miles, or 15.57 per cent.

The passenger train miles for the fiscal year ended November 30th, 1898, were . . . . .	4,789,009 miles.
For fiscal year ended November 30th, 1897 (estimated) . . . . .	*5,786,829 "
Showing a reduction of . . . . .	997,820 miles.

The average number of passengers carried one mile per mile run by passenger trains increased from  $23\frac{1}{2}$  passengers in 1897, to  $30\frac{1}{2}$  in 1898, an increase of 7 passengers, or 29.79 per cent.

#### EXPRESS AND MAIL.

The earnings from express and mail traffic were \$402,958.58, an increase of \$36,291.85 over the previous year, or 9.89 per cent.

#### MISCELLANEOUS EARNINGS.

The miscellaneous earnings were largely derived from the coal docks at Perth Amboy, Buffalo, North Fair Haven, and Ithaca, the earnings from which were, for the year ended November 30th, 1898, \$394,367.50, an increase of \$43,230.14 over the previous year, or 12.31 per cent.

The rents received from real estate belonging to the Company, occupied by other parties, was \$154,785.04, a decrease of \$3,700.19, as compared with the previous year, or 2.33 per cent.

The remainder of the miscellaneous earnings was derived from telegraph, dining cars and restaurants, news privileges, storage, &c., and aggregated \$63,198.13, an increase of \$16,756.52, as compared with the previous year, or 36.08 per cent.

#### OPERATING EXPENSES.

The policy of the present management has been, and for some time to come must continue to be, in the line of liberal, and perhaps unusual, expenditures on both roadbed and equipment, in order to adapt the property to the most economical operation.

Substantially all the business of the Company is competitive, or governed by competitive rates, and a study of the figures in this report (and especially a comparison of them with figures in previous reports) will show that rates are steadily and rapidly declining. To derive any profit from them the railway must be so improved in its characteristics as to be able to work much more cheaply than ever before.

The companies with which the Lehigh Valley Railroad is in competition have been adapting themselves to like requirements for many years; but the Lehigh Valley Railroad having done less in these respects until recently, must now proceed with greater activity.

The special changes contemplated during the present year are: (1) the substitution of heavy engines for some of the lighter ones, so as to admit of heavier train loads; (2) lengthening of sidings, &c., to hold the longer trains; (3) strengthening of bridges to carry heavy engines; (4) concentration of shop work; (5) continued improvement of equipment. Every dollar expended for these purposes is in the direction of ultimate, and to some extent immediate, economy of operation.

#### MAINTENANCE OF WAY AND STRUCTURES.

The cost of Maintenance of Way and Structures for the year was \$2,036,050.09, an increase of \$82,561.41, or 4.23 per cent.

Towards facilitating the prompt movement of traffic, and thus conducing towards economy in "Conducing Transportation," expenditures have been made during the year for additional tracks and sidings, together with other facilities for the acquisition of business, the cost of which it is thought prudent at this time to charge against operating expenses. The details of these expenditures on the several divisions, amounting in the aggregate to \$319,962.69, are as follows:—

# MAINTENANCE OF EQUIPMENT.

On November 30th, 1898, your locomotives, passenger cars, freight, coal, and service cars were in better general condition than at the end of the previous fiscal year, there being 1413 cars of all classes in shop, or awaiting repairs, as compared with 2065 cars for the corresponding date of 1897; and 73 locomotives, as compared with 80 locomotives in 1897.

It should be remembered, however, that a considerable portion of your equipment is of an obsolete type, particularly the four-wheel coal cars, which are being condemned and taken out of service as rapidly as good judgment warrants. There are also a number of engines which, owing to their light capacity, are not economical for service, and it will be necessary to replace them with engines of greater tractive power at an early date. During the period required to restore such portions of your equipment to a modern standard, it is to be expected that the expenditures charged to maintenance will be unusually heavy, but when completed the resulting saving in cost of transportation should be large.

The expense of Maintenance of Equipment amounted to \$3,126,026.66, an increase of \$129,163.03 as compared with the previous year, or 4.31 per cent.

In this amount is included the estimated cost to replace the following equipment worn out or destroyed:—

18 locomotives . . . . .	\$185,250 00	1 passenger car . . . . .	\$6,325 00
2663 4-wheel coal cars . . . . .	303,582 00	1 express car . . . . .	2,267 00
68 8-wheel coal cars . . . . .	30,200 00	3 combination cars . . . . .	14,628 00
194 box cars . . . . .	76,337 38		
41 other freight cars . . . . .	12,544 95	Total . . . . .	\$666,652 40
5 caboose cars . . . . .	1,875 00		
151 service cars . . . . .	33,643 07		

This amount was credited to the Equipment Renewal Reserve Account, the credit balance of which at the beginning of the year was \$635,320.78. The balance of account for Depreciation of Equipment of Controlled Companies, \$288,966.48, has been added to these amounts, bringing the total credit to Equipment Renewal Reserve Account up to . . . . . \$1,590,939 66

Against this has been charged equipment bought, as follows:—

1000 box cars, costing . . . . .	\$586,801 03
14 locomotives . . . . .	157,753 82
1 dining car . . . . .	11,645 00

There were built in the Company's shops:—

14 box cars, Car Trust "Series A" . . . . .	on account	5,875 26
1 coal car, Car Trust "Series B" . . . . .		561 91
14 coal cars, Lehigh Valley Terminal Railway Car Trust . . . . .		6,562 74

Total charges during the year . . . . . 769,199 76

Leaving a credit balance, November 30th, 1898, available as required, for the purchase of new equipment to replace equipment destroyed, of . . . . . \$821,739 90

In addition, the cost of 250 box cars, amounting to \$146,700.27, was charged to Maintenance of Equipment; 1582 cars were equipped at the Company's shops with Master Car Builders' couplers, and 70 cars with air brakes, at a total cost of \$45,736.18, which was also charged to the same account.

The total number of locomotives owned on November 30th, 1898, by the several roads in your system was 736, of an average age of 10 1-5 years.

The total tonnage capacity of your freight and coal equipment in service November 30th, 1898, was 889,732 tons, as compared with 873,558 tons the previous year, an increase of 16,174 tons. Of your total coal and freight equipment, 24,654 cars, or 58.27 per cent., are now equipped with master car builder couplers; and 13,613 cars, or 32.18 per cent., with air brakes.

The average mileage made by engines was 46,653.8 miles in passenger service, and 31,549.5 miles in freight service. The greatest mileage was 113,433 miles in passenger service, and 57,363 miles in freight service.

### CONDUCTING TRANSPORTATION.

The items of operating expenses comprised under the heading of Conducting Transportation amount to \$8,242,905.84, a decrease as compared with the previous year of \$404,484.54, or 4.68 per cent., notwithstanding an increase of coal and freight transported one mile of 382,081,882 tons, and of 11,020,661 passengers carried one mile.

Large decreases are shown in the cost of train and engine service, car service, and cleaning and inspecting cars.

Rents of tracks and terminals increased, due to the heavier movement of traffic on lines belonging to other companies over which your Company has trackage rights.

The increase in fuel for locomotives is due to the heavier traffic; and the increase in station agents and clerks is attributable to a reclassification of employes now placed under this head instead of under another account, as formerly.

### GENERAL EXPENSES.

The general expenses amounted to \$568,388.37, a decrease of \$27,062.14 as compared with the previous year, or 4.54 per cent.

### LEHIGH VALLEY TRANSPORTATION COMPANY.

The fleet of the Lehigh Valley Transportation Company, operating on the Great Lakes, and which is owned entirely by your Company, consists of the following vessels:—

#### STEEL STEAMERS.

"E. P. Wilbur," built in May, 1888 . . . . .	carrying capacity 3,000 tons.
"Seneca," built in August, 1889 . . . . .	" 3,000 "
"Saranac," built in April, 1890 . . . . .	" 3,000 "
"Tuscarora," built in June, 1890 . . . . .	" 3,000 "

#### WOODEN STEAMERS.

"Tacoma," built in August, 1881 . . . . .	carrying capacity 2,250 tons.
"Oceanica," built in September, 1881 . . . . .	" 2,050 "
"Clyde," built in September, 1881 . . . . .	" 1,800 "
"R. A. Packer," built in September, 1881 . . . . .	" 1,320 "
"H. E. Packer," built in September, 1882 . . . . .	" 1,650 "
"Fred Mercur," built in October, 1882 . . . . .	" 1,650 "

Total carrying capacity . . . . . 22,720 tons.

## FLOATING EQUIPMENT.

The floating equipment of the Easton and Amboy Railroad, employed in New York Harbor and Long Island Sound, consists of:—

4 tugs,                      40 barges,                      7 propellers.

In addition to these, the Easton and Amboy Railroad Company owns one-half interest in the New York Lighterage and Transportation Company, owning:—

There are also                      5 tugs,                      76 floats,                      1 wrecking boat.

225 canal boats,                      15 scows,                      2 dredges,  
belonging to the Company, operated on the Morris Canal.

## FINANCIAL.

The mortgage of the Lehigh Valley Railroad Company, dated May 15th, 1868, bearing 6 per cent. interest per annum, known as the First Mortgage, matured, under its terms, on June 1st last.

As it was deemed to the interest of your Company, in lieu of providing for the payment of said issue of bonds, to arrange with the holders for the extension of the time of payment of the principal thereof to June 1st, 1948, and for the reduction of the interest thereon to 4 per cent. per annum, payable semi-annually in gold coin, free of taxes, your Board authorized and instructed the officers of the Company to cause to be prepared a suitable extension agreement and the necessary coupon sheets, and to cause to be stamped on the face of each of the said bonds, coupon or registered, when presented, the words "Extended at 4 per cent. per annum interest, in accordance with the annexed agreement."

Under the authority thus given, practically the entire issue of these bonds has been presented and extended.

Both the original trustees named in this mortgage being dead, your Company appointed The Girard Life Insurance, Annuity and Trust Company of Philadelphia as trustee to succeed them.

The issue of sterling bonds under the Consolidated Mortgage was extinguished by the final drawing of bonds of the par value of \$284,000, payable December 1st, 1897, all of which, with the exception of one bond, have been presented and paid.

The semi-annual amounts due on car trusts, \$100,000 on series A and \$50,000 on series B, were paid; and payments to the amount of \$75,000 on account of the provisions of the sinking fund of the Mortgage and Collateral Trust Deed, were made to the trustees, reducing the principal of said mortgage by a corresponding amount. The total principal of your funded debt was thus reduced \$509,000 during the year.

The increase in charge for interest on funded debt is due to a full year's interest being included on the Mortgage and Collateral Trust Bonds issued in 1897, in which year interest was charged only from the date of sale of the bonds; the increase thus shown, was reduced by the saving in interest on the First Mortgage Bonds, and by the interest on bonds retired, as noted above.

Your Company has no floating debt.

## CAPITAL STOCK.

The share capital of the Company remains unchanged. It consists of—

806,696 shares common stock, par \$50 . . . . .	\$40,334,800 00
2,126 shares preferred stock, par \$50 . . . . .	106,300 00
Total capital stock . . . . .	<u>\$40,441,100 00</u>

## GENERAL REMARKS.

The Joint Traffic Association, of which this Company with thirty-one others was a member, as stated in previous reports, was dissolved in November last, in obedience to a decision of the Supreme Court of the United States that its articles of association were violative of the statute known as the Sherman Anti-Trust Act. No substitute for the method thus abandoned has yet been devised for bringing the trunk lines of the country into such harmonious co-operation as is essential to the maintenance of just rates for transportation. There is, however, reason to believe that public opinion is awakening to the importance of preserving the railroads of the country from destruction, and that the aid of the Government, by legislation or otherwise, and of the business community, may ere long be given to the honest and earnest efforts which are being made to adopt, and maintain impartially, rates that shall promote and not restrict the trade of the country.

The account with the Philadelphia and Reading Railroad Company, lessees, is in the same position as stated in the last annual report, no agreement having been reached. The Company's attorneys are prepared to bring this matter to an issue at an early date, so that a legal determination of your claims under the lease may be secured.

Mr. Stephen Little was requested to make an examination of, and to verify, the accounts of the Railroad Company and the Coal Company for the fiscal year. His certificate as to their correctness is hereinafter submitted for your information.

The general balance sheet and detailed statements of earnings and expenses, together with various statistical tables, will be found appended to this report.

A summary of the operations of the Lehigh Valley Coal Company during the year, its general balance sheet, income account, and profit and loss account, are shown in the following pages.

The net results from operation of the Railroad Company for the year have been . . . profit, \$474,104 43  
 The net results from operation of the Coal Company for the year have been . . . loss, 1,142,807 41

Total debit for the year (both companies) . . . . . \$668,702 98

This debit is more than represented by the amount expended for colliery improvements during the year, viz. . . . . 700,648 90  
 which is included in the loss of the Coal Company.

Mr. Charles Hartshorne resigned as Vice-President, which office he had held continuously for thirty years from 1868, with the exception of the years 1880 to 1882 inclusive, during which period he was President of the Company. His resignation as Vice-President became effective January 1st, 1899.

Mr. Thomas McKean, a valued member of the Board of Directors, died on March 16th last. Mr. Wilson S. Bissell, of Buffalo, N. Y., was elected a Director of the Company, May 18th, 1898, to fill the vacancy caused by the death of Mr. McKean.

By order of the Board,

ALFRED WALTER,  
*President.*

## LEHIGH VALLEY COAL COMPANY.

There was produced during 1898, from the collieries operated by the Lehigh Valley Coal Company and its tenants, and from collieries operated by tenants of land companies in which the Lehigh Valley Coal Company or the Lehigh Valley Railroad Company is interested through ownership of stock, a tonnage aggregating 4,426,138.17 tons of all sizes, an increase of 41,696.06 tons as compared with the figures for 1897.

The sources from which this tonnage was derived during 1898 are shown in the table below, together with the amounts derived from the same sources during the fiscal years of 1897 and 1896, viz. :—

	1898	1897	1896
Lehigh Valley Coal Company . . . . .	2,609,126.00	2,613,725.15	2,819,756.18
Tenants of Lehigh Valley Coal Company . . . . .	1,113,447.15	1,139,003.03	1,492,155.18
Other tenants . . . . .	703,565.02	631,713.13	786,278.04
Total tonnage . . . . .	4,426,138.17	4,384,442.11	5,098,191.00

The tonnage for 1898, with the exception of that from North Franklin, amounting to 58,113.04 tons, was transported to market over the Lehigh Valley system.

The capacity of the collieries operated by the Lehigh Valley Coal Company in 1898 averaged about 19,000 tons per day, but the changes and improvements which have been made during 1898, the results of some of which have not been felt as yet, together with those contemplated during the early part of 1899, will increase this amount by the time the busy season opens to about 22,500 tons per day.

During the month of October, the total shipments over the Lehigh Valley Railroad amounted to 969,530 tons of anthracite coal (exclusive of trackage coal, &c.), of which the Lehigh Valley Coal Company contributed 395,596 tons, or about 40.8 per cent., making it the largest single month's shipment in the history of both the Railroad and Coal Company.

The cost of mining at the collieries operated by the Lehigh Valley Coal Company, based upon shipments of all sizes, and including in addition to the regular mining expenses all charges to general expense, royalty, sinking fund, insurance, taxes, depreciation and improvement account, was per ton, for the years 1896, 1897, and 1898, respectively: \$1.8994, \$1.5522, and \$1.7881.

NOTE.—No allowance was made in cost of mining in 1897 for depreciation of the old improvement account.

## IMPROVEMENT CHARGES.

During the year 1898 there was expended at the anthracite mines \$700,648.90 for colliery improvement work, by which is meant expenditures for dead work and facilities made (1) with a view to opening mining territory, and (2) for the purpose of effecting substantial savings in the cost of your future mining operations. All this expenditure has been charged directly to income.

The cost of mining has also borne a depreciation charge of five cents per ton, amounting to \$130,456.29, which, together with the sum first mentioned, makes a total of \$831,105.19 charged to cost of mining for the year on account of new work and for reduction of the old improvement account.

This amount was, of course, abnormal, but it was nevertheless necessary last year in order to facilitate the purposes above indicated. The success of the Lehigh Valley properties, both railway and coal, must largely depend upon economy of operation; therefore, the interests of all concerned will be promoted by reaching such economy as rapidly as it can consistently and judiciously be reached.

With the uncertainties which at all times surround the anthracite trade, it is essential that the Lehigh Valley Coal Company shall be able to mine as cheaply as its competitors, otherwise, in times of keen competition, like the present, it must either do business at a loss, or withdraw from the coal business altogether.

The present cost of mining by the Lehigh Valley Coal Company is too high, and reduction must come from concentration of work and in improvement of appliances for mining. This necessarily

involves the systematic abandonment or alteration of much existing plant, including small "breakers." The replacement of the property so abandoned is a heavy drain on income, but other companies which have gone through the process are now deriving the benefits, and it is fully believed that a like result will attend the Lehigh Valley Coal Company in due time.

In view of the large expenditures for colliery improvements during the last fiscal year, it is believed that a state of efficiency has been reached which will obviate the necessity for unduly large expenditures in the present fiscal year; their extent, thereafter, must depend upon circumstances not yet fully determined.

Following will be found the principal items included in the expenditures for 1898, above referred to, viz:—

		57,396 59
Total . . . . .		\$700,648 90

Included in the cost of mining coal was the sum of \$54,140.05 for account of the sinking fund under the terms of the mortgage of 1892. This amount has been paid to the trustees under the mortgage, for the purchase and cancellation of bonds. There were purchased during the year \$100,000 par value of bonds, secured by mortgage on the Snow Shoe Lands; and \$25,000 was paid to the trustees under the same mortgage on account of sinking fund, leaving the principal of said mortgage outstanding at the close of the year, \$375,000.

NEW YORK, December 31st, 1898.

ALFRED WALTER, ESQ.,

*President Lehigh Valley Railroad Company:*

DEAR SIR:—Complying with your request, I beg to report that I visited Philadelphia, Pa., and in the Comptroller's office of your Company there, examined and verified—

I.

The general profit and loss accounts of the Lehigh Valley Railroad Company and the Lehigh Valley Coal Company, respectively, with the adjustments therein, for the fiscal year ended November 30th, 1898;

II.

The earnings and operating expenses and income accounts of the Lehigh Valley Railroad Company and the Lehigh Valley Coal Company respectively for the fiscal year ended November 30th, 1898;

III.

Their general balance sheets at November 30th, 1898.

I therefore certify, that the elements constituting such general profit and loss accounts, income accounts, and balance sheets are fully and fairly set forth, and reflect truthfully the transactions of the two Companies respectively, for the year under review and their financial condition at the end thereof.

As usual, every courtesy and facility necessary to my examination was freely extended to me, and is hereby acknowledged.

Yours very truly,

STEPHEN LITTLE.
